

INNOVATIONS THEATER SCHEDULE

TUESDAY, AUGUST 20

10:00 AM	Aeroseal LLC	Aerosol Duct Sealing - The New Low Hanging Fruit of Energy Conservation Measures
10:45 AM	Conservant Systems, Inc.	Solving Mold Growth and Cutting Energy Waste by Over 57% – a High Efficiency Dehumidification System (HEDS) ESTCP Case Study at Fort Bragg, NC
11:30 AM	Parsons	Quantifying Energy Savings with Advanced Technologies
12:15 PM	Eaton	How can I afford Connected Lighting in my next ESPC project?
1:00 PM	CDM Smith and Autodesk	Campus Scale Rapid Energy Modeling for Decision Making
1:45 PM	Freese and Nichols	Refuse Re-use: Using Water-cooled HVAC to Combat Corrosion at Wastewater Treatment Plants
2:30 PM	Sain Engineering Assoc.	The Use of Ceramic-Based Coatings in Military Facilities and Structures to Enhance Building Envelope Characteristics and Improve HVAC Efficiencies
3:15 PM	DN Tanks	Thermal Energy Storage – Enhancing your Cooling System for Savings, and Resiliency
4:00 PM	Distributed Sun	MERC Microgrid Award
4:45 PM	AECOM	Rosetta: a Strategic Planning, Design and Delivery Platform

WEDNESDAY, AUGUST 21

10:00 AM	Turtle Energy Storage Services	Energy Storage: Execution Potholes & Resilience Management
10:45 AM	ABB	Microgrids for Mission Critical Applications
11:30 AM	Energy Systems Group	Developing a Resilience Roadmap
12:15 PM	Siemens Government Technologies and Department of the Navy	U.S. Navy to Implement Largest Ever Fence-to-Fence Energy Efficiency and Resiliency Program
1:00 PM	KBR	Inside Navy Smart Grid
1:45 PM	Wood	Infrastructure and Energy Technology Screening Tool to Build Innovative Resilience Projects
2:30 PM	SkyFoundry	Benefits of Distributed Data Analytics for Operational Efficiency
3:15 PM	NuEnergen, LLC	Demand Response: Best Practices for Multi-Division, Multi-Site Program Implementation
