

EXHIBITOR PROSPECTUS

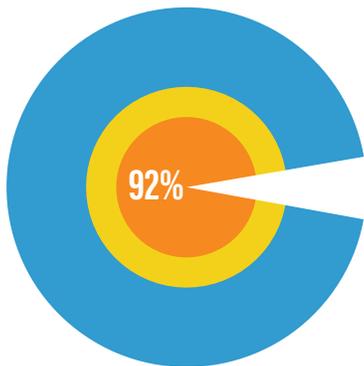

JOIN US IN PITTSBURGH IN 2024

The Energy Exchange is likely the most anticipated and appreciated event in the energy and water sectors. Thousands of resource managers and decision-makers come to learn new ways to use our nation's resources more efficiently. They come looking for new ideas and partners and ready to plan and implement the expanding scope of sustainable and secure systems and projects our nation needs.

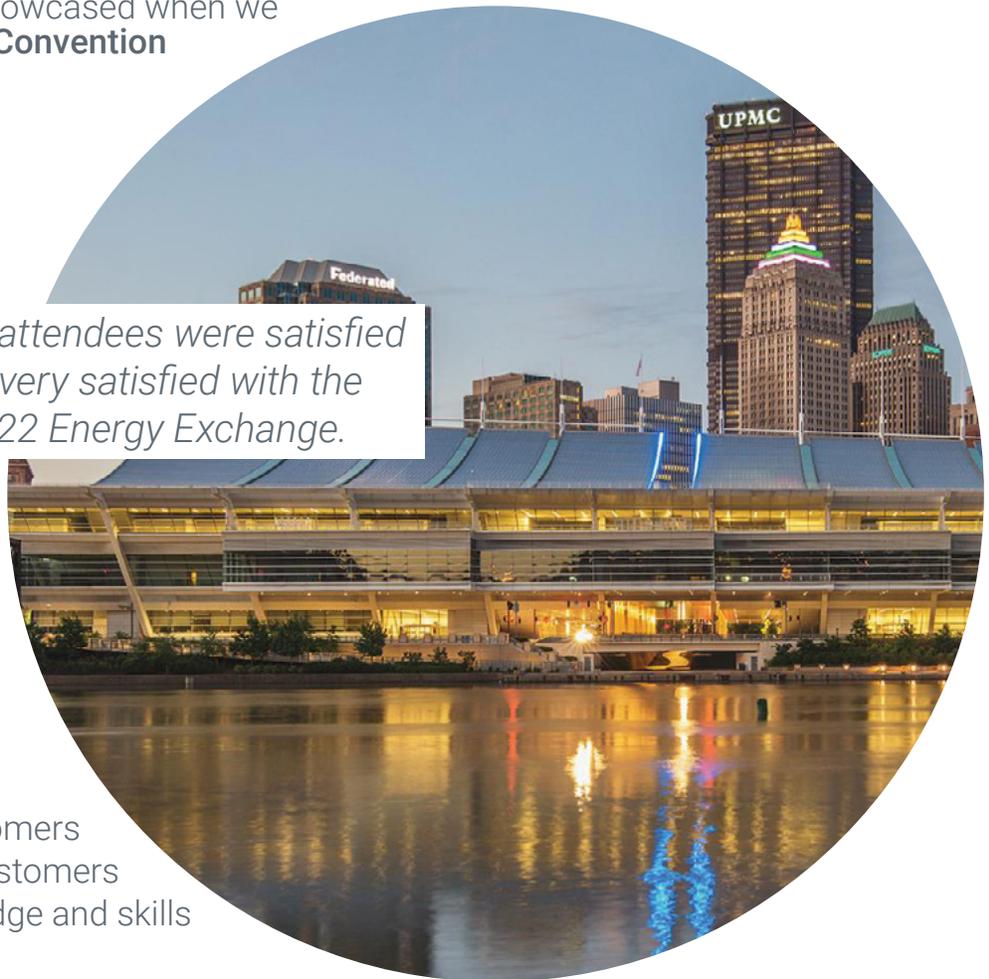

WE ANTICIPATE OVER

2,400
ATTENDEES
IN 2024

Make sure *your* solutions are showcased when we meet at the **David L. Lawrence Convention Center in Pittsburgh** from **March 26-28, 2024**.

of attendees were satisfied or very satisfied with the 2022 Energy Exchange.

TOP REASONS TO EXHIBIT

- Connect with current customers
- Meet project-ready new customers
- Increase your own knowledge and skills
- Showcase your solutions
- Generate qualified leads with resource managers
- Expand your reach to state, local, and private sector influencers and decision-makers
- Understand the government sector and your competitors better
- Introduce new innovations
- Strengthen your leadership position

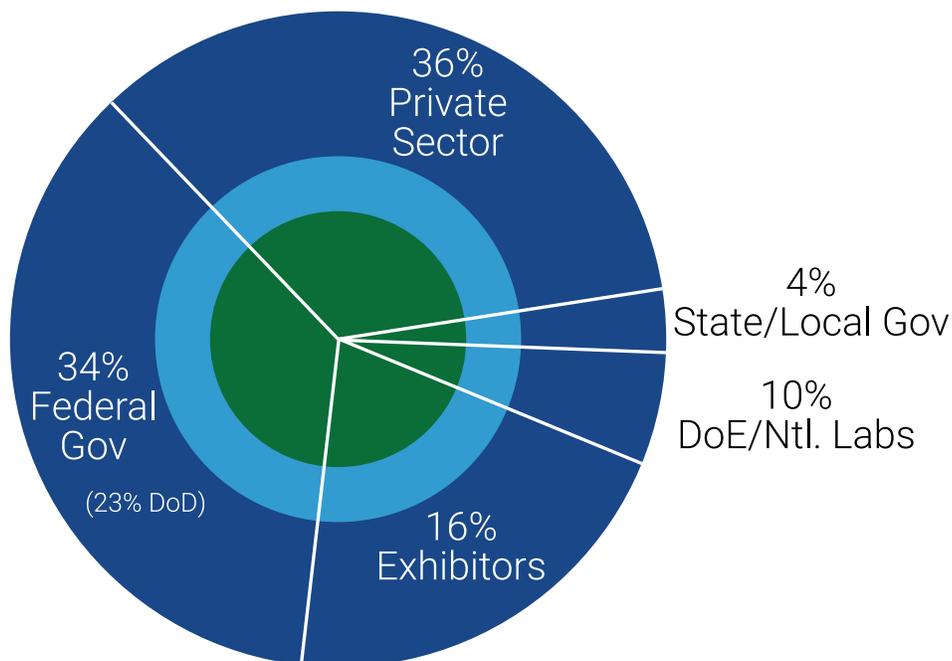

ATTENDEE PROFILE

Although the Energy Exchange is the premier DOE and FEMP training event, those who attend are as likely to come from the private sector as the DoD or another federal agency. Thus, the Energy Exchange helps you reach everyone from the designers and planners who envision projects to the engineers and managers who implement them.

Most of our attendees hold positions as:

- Facility, Fleet and Water Managers
- Research, Design, and Development Professionals
- Engineers and Project Implementation Specialists
- Financial Managers and Procurement Officers
- Building Commissioners and Compliance Managers
- Energy Auditors and Attorneys
- Federal, State, Local, and Private Sector Resource Managers and Planners

ATTENDEES COME FROM BOTH THE PUBLIC AND PRIVATE SECTORS AND A WIDE VARIETY OF AGENCIES AND STATES.

TOP REASONS FOR ATTENDING

Energy Exchange 2022 featured 77 training sessions, 91% of which were accredited.

A total of 12,584 training hours logged.
