

BE EFFICIENT AND RESILIENT

AUGUST 20 - 22, 2019

Energy Exchange 2019 is a cost-effective, agency-driven training event for the federal energy management community. This year's theme emphasizes the pathway and desired end state of federal energy and water management.

BE EFFICIENT

- 🐾 Understand how to implement priorities from Executive Order 13834 Efficient Federal Operations
- 🐾 Implement cost-effective projects
- 🐾 Ensure agencies utilize and implement the most cost effective types of projects and policies
- 🐾 Catalyze federal investments in energy and water efficiency measures leveraging public/private partnerships

AND RESILIENT

- 🐾 Expand the use of advanced and emerging technologies to strengthen and secure Federal infrastructure.
- 🐾 Develop and disseminate integrated resilience planning processes through agency operations based on mission needs.
